Objective

Career Objective
Computer Science graduate seeking an entry-level Software Developer role to contribute to real-world projects, continuously learn, and grow into a skilled software professional.

Education

A. P. J. Abdul Kalam Technological University **Oct. 2022 – May 2026**
SCMS School of Engineering and Technology — B.Tech in Computer Science — CGPA: 6.49/10 *Ernakulam, Kerala*

Higher Secondary (Class XII) **2022**
Devagiri CMI Public School — CBSE — 87% *Kozhikode, Kerala*

Secondary (Class X) **2020**
Devagiri CMI Public School — CBSE — 75% *Kozhikode, Kerala*

Experience

Luminar Technolab **June 15, 2026 – Present**
ASP.NET Full Stack Development Intern

- Currently undergoing practical training in ASP.NET, C#, SQL Server, and web application development.
- Gaining hands-on experience with ASP.NET Web Forms, ADO.NET, database integration, and web controls.
- Working with SQL queries, stored procedures, and developing web applications through practical projects.

Gyaan Innovation Lab (IIIT Kottayam) **May 2023**
AWS Virtual Intern

- Learned fundamentals of cloud computing and core AWS services.
- Understood basic concepts of scalability, security, and cloud-based application deployment.

Projects

Veg_Hunt – Restaurant Review Platform | *HTML/CSS, JavaScript, Firebase, Google Places API* **March 2025**

- Developed a vegetarian restaurant review web app displaying restaurant details, images, and ratings.
- Integrated Google Places API for dynamic restaurant data and Firebase for user authentication and real-time database operations.
- Implemented a DistilBERT-based sentiment analysis model to analyze customer reviews and generate ratings based on sentiment.

Quotes and Proverbs Sharing Platform | *HTML, CSS, JavaScript, Flask* **March 2025 – October 2025**

- Built a web app where users can submit meaningful quotes and proverbs along with personal insights.
- Implemented login, signup, and quote submission using SQLite database and custom HTML forms.

Technical Skills

Programming Languages: C#, JavaScript, SQL
Web Technologies: HTML, CSS, Bootstrap, ASP.NET Web Forms
Databases: Microsoft SQL Server, Firebase
Frameworks / Tools: .NET Framework, ADO.NET, Flask, Visual Studio, GitHub

Additional Skills

Analytical & Problem-Solving Skills
Logical Reasoning, Critical Thinking and Problem Solving, Communication

- Strong analytical thinking and ability to approach problems systematically.
- Comfortable with quantitative, logical, and verbal reasoning problems.
- Regular practice of coding and logical problem-solving questions.
- Good attention to detail in debugging and identifying technical issues.
